### Topic of the day : Overvalued and Undervalued

**Some pieces are very interesting for their design, shape or iridescent and have a nominal value and others have a very high value while being really attractive.**

**To appreciate these contrasts, bring your pieces that illustrate this phenomenon.**

Remember your latest finds, discoveries and pieces for the PEP

The room is offered to us for free. We understand that some of us have to leave at the end of the meeting. However, we expect that many can enjoy an excellent dinner **and a possible surprise post-meal ... Not to be missed! ...**
