Annual meeting

Topics of the day: *Table sets*

These objects occupied an important place in family life during the glory days of carnival glass. They were at the center of the table in the hubbub of meals. It is therefore not surprising that it is very rare to find all the pieces of a set without a few small traces of their tormented life.

To remind us of their perilous life, we have chosen this theme to highlight them. We ask you to bring a set where, considering tedious to pack all these parts, at least, a piece of the set. Suggestion, the butter dish, is often eloquent of the beauty of the motif used.

Reminder : « Bring your latest finds »
